DESCRIPTION

Haifa Bonus is a potassium-nitrate based formulation optimised for foliar feeding, delivering fast-acting potassium and nitrogen to boost fruit set, size and quality. As part of Haifa's globally trusted specialty range, it is manufactured to consistent, high-purity standards and is fully water-soluble for clog-free fertigation.

Key benefits

Rapid leaf uptake for quick correction and quality push

Supports fruit set, sizing and colouring at critical stages

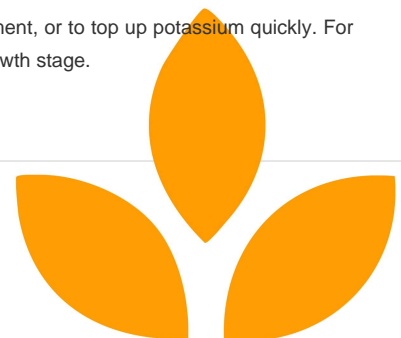

Chloride- and sodium-free; low scorch risk

Complements drip fertigation with targeted foliar nutrition

Composition & how to use

potassium nitrate (foliar grade)

Foliar-sprayed at key stages such as flowering and fruit development, or to top up potassium quickly. For best results, Agrifirst agronomists will build a crop-specific feeding schedule based on your crop, soil, water quality and growth stage.

Best-suited crops

Grape, pomegranate, citrus, tomato, capsicum, banana and other fruiting crops.
