

Haifa Micro Combi

Haifa Micro Combi by Haifa — is a balanced blend of chelated micronutrients (iron, manganese, zinc, copper, plus boron and molybdenum) that prevents multiple deficiencies in one easy-to-use product. Buy from Agrifirst, exclusive Haifa partner for Nor

DESCRIPTION

Haifa Micro Combi is a balanced blend of chelated micronutrients (iron, manganese, zinc, copper, plus boron and molybdenum) that prevents multiple deficiencies in one easy-to-use product. As part of Haifa's globally trusted specialty range, it is manufactured to consistent, high-purity standards and is fully water-soluble for clog-free fertigation.

Key benefits

Complete micronutrient package in a single product

Prevents hidden, multi-element deficiencies that limit yield

Chelated micros for solubility and availability

Simplifies fertigation and foliar programs

Composition & how to use

chelated multi-micronutrient blend

Applied through fertigation or foliar spray as routine micronutrient insurance across the crop cycle.

For best results, Agrifirst agronomists will build a crop-specific feeding schedule based on your crop, soil, water quality and growth stage.

Best-suited crops

All intensive vegetable, fruit, flower and plantation crops.

Why buy Haifa Micro Combi from Agrifirst?

Agrifirst is the **exclusive Haifa partner for North India**. You get 100% genuine Haifa product, expert crop-nutrition guidance and reliable doorstep supply — plus a tailored program that gets the most out of every application.
