

## Haifa Micro Cu 15

Haifa Micro Cu 15 by Haifa — is EDTA-chelated copper that corrects copper deficiency, highly soluble and safe for fertigation and foliar use. Buy from Agrifirst, exclusive Haifa partner for North India.

### DESCRIPTION

**Haifa Micro Cu 15** is EDTA-chelated copper that corrects copper deficiency, highly soluble and safe for fertigation and foliar use. As part of Haifa's globally trusted specialty range, it is manufactured to consistent, high-purity standards and is fully water-soluble for clog-free fertigation.

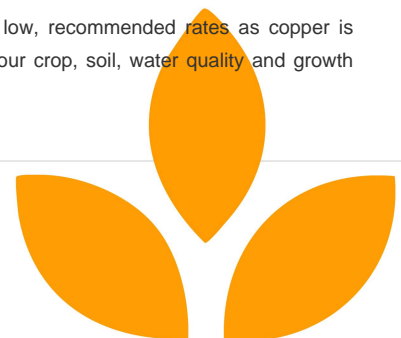

### Key benefits

- Corrects copper deficiency efficiently at low rates
- Chelated for solubility and controlled availability
- Supports lignin formation, pollen viability and disease resistance
- Suitable for drip and foliar programs

### Composition & how to use

#### EDTA-chelated copper

Applied through fertigation or foliar spray where copper is deficient; use at low, recommended rates as copper is needed in small amounts. For best results, Agrifirst agronomists will build a crop-specific feeding schedule based on your crop, soil, water quality and growth stage.

## Best-suited crops

Cereals, vegetables, citrus and fruit crops on copper-deficient soils.

### Why buy Haifa Micro Cu 15 from Agrifirst?

Agrifirst is the **exclusive Haifa partner for North India**. You get 100% genuine Haifa product, expert crop-nutrition guidance and reliable doorstep supply — plus a tailored program that gets the most out of every application.
