

Haifa Micro Zn 15

Haifa Micro Zn 15 by Haifa — is EDTA-chelated zinc (15%) for fast, effective correction of zinc deficiency, supporting better growth and yield. Buy from Agrifirst, exclusive Haifa partner for North India.

DESCRIPTION

Haifa Micro Zn 15 is EDTA-chelated zinc (15%) for fast, effective correction of zinc deficiency, supporting better growth and yield. As part of Haifa's globally trusted specialty range, it is manufactured to consistent, high-purity standards and is fully water-soluble for clog-free fertigation.

Key benefits

Rapidly corrects zinc deficiency (small leaves, short internodes)

Chelated for high solubility and plant availability

Supports enzyme activity, hormones and grain/fruit set

Ideal for fertigation and foliar programs

Composition & how to use

EDTA-chelated zinc (15%)

Applied via fertigation or foliar spray where zinc is deficient, common on high-pH and sandy soils. For best results, Agrifirst agronomists will build a crop-specific feeding schedule based on your crop, soil, water quality and growth stage.
