

Haifa Multinpk

Haifa Multinpk by Haifa — is a granular NPK complex based on potassium nitrate for soil application in field crops, orchards and plantations — balanced nutrition in a single product. Buy from Agrifirst, exclusive Haifa partner for North India.

DESCRIPTION

Haifa Multinpk is a granular NPK complex based on potassium nitrate for soil application in field crops, orchards and plantations — balanced nutrition in a single product. As part of Haifa's globally trusted specialty range, it is manufactured to consistent, high-purity standards and is fully water-soluble for clog-free fertigation.

Key benefits

- Balanced N-P-K in every granule for even field nutrition
- Potassium-nitrate base for efficient, chloride-free potassium
- Convenient soil-applied option for non-fertigated areas
- Supports yield and quality across broadacre and orchard crops

Composition & how to use

granular NPK complex

Broadcast or band-applied to soil for field crops and orchards where fertigation is not used. For best results, Agrifirst agronomists will build a crop-specific feeding schedule based on your crop, soil, water quality and growth stage.
