

## HaiFer SS

HaiFer SS by Haifa — is EDDHA-chelated iron for high-pH and calcareous soils, keeping iron fully available to the plant where ordinary chelates break down. Buy from Agrifirst, exclusive Haifa partner for North India.

### DESCRIPTION

**HaiFer SS** is EDDHA-chelated iron for high-pH and calcareous soils, keeping iron fully available to the plant where ordinary chelates break down. As part of Haifa's globally trusted specialty range, it is manufactured to consistent, high-purity standards and is fully water-soluble for clog-free fertigation.

### Key benefits

Stays available in alkaline and calcareous (high-pH) soils

Corrects severe iron chlorosis where EDTA iron fails

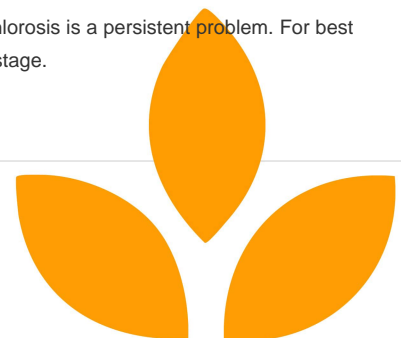

Fully soluble for soil and drip application

Restores green colour, growth and yield

### Composition & how to use

#### EDDHA-chelated iron

Applied through the soil or drip system on high-pH/calcareous soils where iron chlorosis is a persistent problem. For best results, Agrifirst agronomists will build a crop-specific feeding schedule based on your crop, soil, water quality and growth stage.

## Best-suited crops

Citrus, grape, pomegranate, fruit trees and vegetables on alkaline soils.

### Why buy HaiFer SS from Agrifirst?

Agrifirst is the **exclusive Haifa partner for North India**. You get 100% genuine Haifa product, expert crop-nutrition guidance and reliable doorstep supply — plus a tailored program that gets the most out of every application.
