

Poly-Feed Foliar

Poly-Feed Foliar by Haifa — is a foliar-grade water-soluble NPK with micronutrients, formulated for spraying on the canopy for fast nutrient correction between fertigation cycles. Buy from Agrifirst, exclusive Haifa partner for North India.

DESCRIPTION

Poly-Feed Foliar is a foliar-grade water-soluble NPK with micronutrients, formulated for spraying on the canopy for fast nutrient correction between fertigation cycles. As part of Haifa's globally trusted specialty range, it is manufactured to consistent, high-purity standards and is fully water-soluble for clog-free fertigation.

Key benefits

Rapid leaf uptake for quick response and deficiency correction

Balanced NPK + micros in low-scorch, high-purity form

Complements the drip program during peak demand or stress

Improves canopy health, set and quality

Composition & how to use

foliar-grade NPK + micronutrients

Foliar-sprayed at recommended intervals, especially during high demand, root stress, or to correct deficiencies quickly. For best results, Agrifirst agronomists will build a crop-specific feeding schedule based on your crop, soil, water quality and growth stage.
