

## Poly-Feed GG

Poly-Feed GG by Haifa — is Haifa's greenhouse-grade, fully water-soluble NPK fertilizer with micronutrients for drip fertigation, available in many ratios to match every crop and growth stage. Buy from Agrifirst, exclusive Haifa partner for North Ind

### DESCRIPTION

**Poly-Feed GG** is Haifa's greenhouse-grade, fully water-soluble NPK fertilizer with micronutrients for drip fertigation, available in many ratios to match every crop and growth stage. As part of Haifa's globally trusted specialty range, it is manufactured to consistent, high-purity standards and is fully water-soluble for clog-free fertigation.

### Key benefits

Complete NPK plus chelated micronutrients in one balanced product

Many formulas for vegetative, flowering and fruiting stages

High purity and full solubility — no residue, no clogging

Precise, efficient nutrition for higher yields and quality

### Composition & how to use

#### water-soluble NPK + micronutrients

Applied through drip fertigation, switching formula ratio to match the crop stage. For best results, Agrifirst agronomists will build a crop-specific feeding schedule based on your crop, soil, water quality and growth stage.

## Best-suited crops

All polyhouse and open-field vegetables, flowers, fruit and plantation crops under drip.

### Why buy Poly-Feed GG from Agrifirst?

Agrifirst is the **exclusive Haifa partner for North India**. You get 100% genuine Haifa product, expert crop-nutrition guidance and reliable doorstep supply — plus a tailored program that gets the most out of every application.
